

Sierra County Waterworks District #1-Calpine

New Water Utility Service Application - Single Family Residence

Thank you for contacting Sierra County Waterworks District #1 - Calpine for your water utility service needs. We have assembled this package to help ensure that your new water service is activated as quickly as possible, to provide you with copies of the required documents and to help guide you through the process of obtaining new service.

This application packet contains:

- Fee Schedule
- Utility Service Application
- Water Meter Service Detail

New Service Application and Connection Process

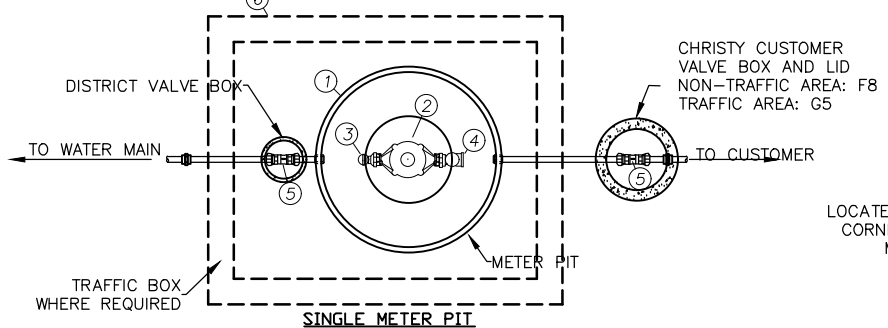

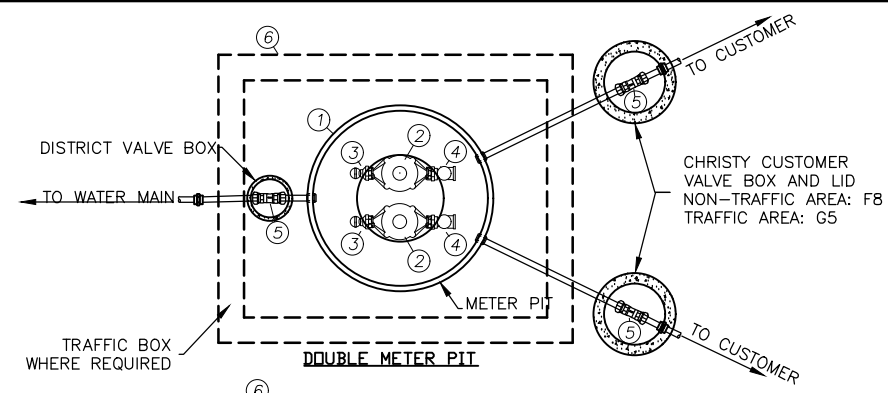

1. Submit completed application with all appropriate fees.
2. Application will be reviewed and approved or returned for additional information.
3. Upon Approval of the application a "Will Serve" letter will be issued to the applicant.
4. Should any changes to the water service lateral to accommodate fire flow requirements, or to bring the service connection to current District standards be necessary, a field meeting shall be scheduled with the District and Property Owner representatives to discuss those changes prior to any work on District facilities. The applicant is responsible for all costs associated with bringing the water facilities to current standards, and to schedule an inspection of changes prior to backfill.
5. Once the District has signed off on any work to District facilities, and after all fees are paid, a water meter will be placed at the service connection, water service will be turned on, and billing for service will commence.

FEE SCHEDULE

- **Application Fee - \$75.00**
- **Facility Fee**
 - **5/8" meter - \$1,500.00**
 - **3/4" meter - \$2,000.00**
- **Connection Fee - \$1,000**
- **Meter Fee - \$300.00**
- **Inspection Fee - actual cost**

METER PIT SERVICE DETAIL

DWG. No. JULY, 2017
W-01
SCALE: N.T.S.

Sierra County Waterworks District No. 1
P.O. Box 25
Calpine, CA 96124

Dear Customer,

This is to make you aware of the Sierra County Waterworks District No. 1 policy regarding determination of responsibility for location and repair of leaks in the water system.

The District will respond to a suspected water leak and if necessary call in a contractor to expose the facilities.

Customers With Meters: If the leak proves to be to the water main side of the meter (including the meter) it will be the responsibility of the District to repair at their cost. If the leak proves to be the house side of the meter it will be the customer's responsibility for expense of the contractor as well as repair of the leak.

Customers Without Meters: If the leak proves to be to the water main side of the curb stop (the shut-off valve at the property line) it will be the responsibility of the District to repair at their cost. If the leak proves to be to the house side of the curb stop it will be the customer's responsibility for expense of the contractor as well as repair of the leak.
